

Headsets DQN HU211/212 Series

Ideal for work from home users

DQN HU211/212 series headsets are professional headsets that combine superb noise canceling technology with elegant and robust design, delivering good sound on both ends of the call. UB200 series headsets are built to survive in high-performing contact centers and to meet the requirements of users who want great value products for transitioning to PC telephony.

Comfortable Lightweight Design

Adjustable headband and flexible nylon microphone boom make it easy to use. Foam ear cushions which can reduce ear pressure and make it very comfortable to wear

High-definition Sound Quality

Wide-band technology speakers are used to make the voice more realistic, which helps to decrease listening errors, repeats and listener fatigue

Hearing Protection

Unique Hearing protection technology instantly removes any harmful loud sounds, which keeps the sound level in the safe range and protects users' hearing

Great Value with High Quality

Gone through stringent and uncompromising quality tests for intensive usage

Noise Cancellation

Noise cancellation with electret condenser microphone and innovative noise cancellation reduce background noise
